

Create a Podcast: Part One-E

This Video briefly describes how to Create a Podcast for KCPK-LP radio. This is Part One-E.

We will discuss Required Release forms

Further examples of releases required for your specific podcast format can be viewed via the videos on the “Copyright Resources” webpage of www.KCPK-LP.org (or see the sidebar for the link)

If you only want to submit one podcast, please contact an Independent Broadcast Coalition member to become part of their specific podcast series. Do not submit directly to KCPK-LP.

If you need further help in developing your podcast series, you may seek assistance from an Independent Broadcast Coalition member through their own private podcasting business. To be connected to an IBC member, go to www.Independent-Broadcast-Coalition.org
