

This is Part 4 of the Podcast Business Plan.

The 10-episode contract is available to any community member without restriction. It is also available to individuals outside of the local area. Each podcast will be reviewed by administrative staff and officers to determine that they fulfill the FCC and copyright laws. If the podcaster wants to submit another 10-episode contract, they may do so either concurrently or sequentially with the current contract.

KCPK staff will review and record the underwriting announcement for FCC and copyright reasons. With successful contract fulfillment, the podcaster may become eligible for membership in the Independent Broadcast Coalition.

The Independent Broadcast Coalition member must have a valid IRS qualified business. This means that they will have other business avenues which may consist of other podcast platforms (such as hosting platforms, websites, etc.), other media type businesses (such as video recording, writer/author, etc.), or services specific to podcasters that they offer (such as audio recording, editing, workshop trainings).

The KCPK-LP platform is only one component of their overall business. An individual will pay a \$150 yearly dues, which may be changed by Board of Directors at the annual board meeting in November of each year. The Independent Broadcast Coalition member will receive a weekly podcast air time of 28 minutes, plus one minute for their own business sponsors.
